JUNTA DE PLANIFICACION DE PUERTO RICO

P R E F A C I O

Las series que se presentan en esta publicación, incluyen los estudios de Ingreso Neto y Producto Bruto así como otras estadísticas relacionadas a las cuentas sociales de Puerto Rico. La elaboración de las mismas responden a las bases conceptuales y a las metodologías aceptadas internacionalmente.

En el formato de esta publicación se incluye un suplemento especial en donde se detalla una serie histórica a partir del año 1972 de las cinco cuentas que componen el sistema de las cuentas sociales. Estas se conocen como: Cuenta de Ingreso Neto y Producto Bruto; Cuenta de Ingresos y Gastos de las Personas; Cuenta de Ingresos y Gastos de los Gobiernos Estatal y Municipales; Cuenta de las Transacciones del Resto del Mundo y Cuenta de Ahorro e Inversión.

Las estadísticas aquí presentadas se clasifican en tres categorías principales: preliminares, semi-finales y finales. Las correspondientes al año fiscal 1984 se consideran preliminares, las de los años de 1981 al 1983 son series semifinales y como finales se consideran las series hasta el 1980. Estas últimas sin embargo no excluyen la posibilidad de que las mismas puedan ser revisadas posteriormente para introducir cualquier cambio que se estime necesario, especialmente las cifras censales.

La categoría a la cual pertenece cada serie está determinada por la cantidad y calidad de la información disponible al momento de realizar el trabajo. Las series preliminares son aquellas que se preparan pocos meses después de finalizado el año fiscal de referencia y se basa mayormente en indicadores, muchos de los cuales no cubren el año fiscal completo. La categoría de semi-finales se basan en gran medida de los mismos indicadores que los preliminares, pero en éstas se dispone de la información más completa para el año. Las estimaciones finales incluyen toda la información necesaria y se incorporan los cambios en metodologías y supuestos que se hayan establecido en el campo de la economía.

El trabajo de esta publicación representa el esfuerzo de los técnicos que laboran en el Negociado de Análisis Económico de la Junta de Planificación.

Se agradece a su vez, la cooperación de las agencias gubernamentales, empresas privadas e individuos que suministraron la información necesaria para la preparación de esta publicación.

P R E F A C E

The series presented in this publication, includes the Net Income and Gross Product Account, and other statistics related to Puerto Rico social accounts. These estimates are based on methodologies and conceptual framework internationally accepted.

This publication includes a special supplement containing historical series from 1972 onwards summarizing the five principal accounts which comprise the social account system. They are namely: Net Income and Gross Product Account, Personal Income and Outlay Account, Commonwealth and Municipal Government Receipts and Expenditures Accounts, Foreign Transactions Account, and Savings and Investment Account.

The statistics presented herein are classified in three main categories: preliminary series, semi-final series and final series. The 1984 series are preliminar, from 1981 to 1983 are semi-final and the series up to 1980 are classified as final. This last classification may be subject to a future revision to include any necessary changes, especially the census information.

The category in which the estimates are classified are based on the quantity and quality of the information available at the moment of their preparation. The preliminary series are prepared within a few months after the close of the fiscal year to which it refers to and is based on indicators, most of them not covering the year. The semi-final series are based on the same indicators as the preliminary series, but in this case the information is more complete. The final series includes all the information available and it introduces changes in methodologies and concepts established in the field of economics.

This publication represents the work and dedication of the technicians of the Bureau of Economic Analysis of the Puerto Rico Planning Board.

Grateful acknowledgement is made to government agencies, private enterprises and individuals who supplied the information needed to make this publication possible.
